Customer Reviews

I just received this book for a planned trip in two days from New York City to Salt Lake City. I wanted something relatively up-to-date since the only other recent guide book I could find on was the Moon Spotlight guide, which is several years old. Well, after having ordered this on a one day overnight delivery mail basis I found that the book is completely blank! There is not so much as a 1-800 Number or a basic map to locate anything at all in Salt Lake yet alone suggested venues! The book is actually a fill-it-in yourself "travel diary" where you are supposed to enter in your experiences of places and venues you discover on your own during your visit. Why the author/publishers think you need this book for Salt Lake City in particular, as opposed to any other destination, is a mystery to me. But, I had a good laugh at all the blank pages, and promptly ordered the Moon Spotlight guide. Not suggested for people who actually need a guide book!
