Customer Reviews

I was really surprised by this book. For how small it is, it covers more than I thought it would. It focuses on 5 areas. 1-Abu Dhabi and 4 areas/regions in Dubai. Detailed maps are provided for all (The fold out map is a bit awkward but there are also several mini maps throughout the book with marked numbers of the places/sites you are reading about. The "10" is on account of the frequent

lists given throughout the guide in groups of 10. It is not overly detailed but gives you many options to consider visiting or seeing without having to wade through a lot of extraneous information to get to the nitty-gritty and, typical of DK publications, they are not skimpy on the amount of color photographs (although it is a small guide book, made that way for ease of portability, so some of the photos will naturally be quite small). It is not going to have extensive detail on the history of Dubai or the UAE nor on all of the customs and traditions of the people. For those who will be visiting Dubai for a long time, going there more than once, or consider relocating, this book along with Lonely Planet's "Dubai City Guide" and Culture Smart's "The essential guide to customs and culture of UAE" make a great trio.

Good info in this guide prior to my trip to Dubai.

Great little travel guide on the two UAE locations. Because it is compact, know that the words/type are very small. Worth reading and having though.

These Top 10 books are my favorite travel books. To the point and small enough to slip in my purse, but still full of good info

Book is brief, and to the point. It helps to have already done some research on Dubai or visited once to make better sense of the way the book and information are organized. I would still recommend it, however, for quick reference.

Just purchased this book to help with travel plans to Dubai. It is an easy book to navigate around. Goes through the best sights. Indoor and outdoor. Hotels. Food. Transport. Addresses. Contact numbers etc. Very good reference guide. Would recommend this book as being a well thought out and written guide.

why is subway map not included ??

As with every Top 10 DK guide this one was short on some details, but it certainly covered the important sights. We found the Lonely Planet guide more useful.
