Colour Confident Stitching: How To Create Beautiful Colour Palettes

Synopsis

Whether you are a beginner or more experienced, any stitching project can be enhanced by a well-chosen color palette. This book makes creating color palettes a fun and enjoyable part of the design process. It is divided into three parts: Understanding Colour; Feeling Colour and Stitching with Colour. The first two sections guide the reader through color theory as well as choosing color more instinctively. The five projects that are included will encourage the reader to explore color and build confidence through exercise and experiment. Inspirational photographs are accompanied by stitching illustrations and step-by-step photographs for the color choosing process as well as stitching projects.

Karen BarbÃ© is a Chile-based textile designer, embroiderer, photographer and blogger. Her brand home textiles and accessories brand has been featured in Martha Stewart Living.

This will be very helpful when planning projects with my own color scheme. It is a good lesson in

color theory and quick reference for same.

Colour combinations made easy.

Fabulous! Covers colors for both the intellectual and the intuitive. Excellent resource.

It is a pretty book to look at, especially the cover design. I was more interested in the actual stitches and how they were created.
