## Customer Reviews

I took piano lessons as a young child but stopped, in favor of other instruments, while still in elementary school. While I excelled with other instruments, I was never very good at piano. I struggled to even read the left hand. Now I am 35, and a couple of years ago my husband and I inherited a digital piano. Ever since it arrived I have played daily, some times multiple times per day, and my skills have vastly improved. That said, I'm no expert. I would guess you could put me somewhere in the intermediate range. Many of Jim Brickman's songs are not too difficult for me to master with practice, and they still sound lovely. There are times when I can't stretch my fingers to reach the range of notes with one hand, but I just play what I can, and it still sounds good. Some pieces are much easier than others as well. I play from this and one of the Christmas piano books. In my entire collection, these two books are my favorites to play from.

The music in this book is great, but the physical book was not adequately planned for a pianist. It's a fairly thick book but with a typical book spine, so it's almost impossible to keep it open while playing

from it without ruining the book.

The Essential Jim Brickman, Vol.4: Faith and Inspiration is a wonderful compilation of songs of faith. It includes songs I remember singing as a child and will now enjoy learning to play on the piano. The arrangements are written at an easy enough level that even the average piano player such as myself can learn relatively quickly. I am looking forward to purchasing the CD as well!!

nice melodies and arrangements, already used a couple for preludes and postludes.

Nice selection of pieces that are difficult enough to be challenging yet playable.

I was excited to get this book, but it arrived with some damage on the corner. Otherwise exactly what I wanted.

This is a really nice book, with a collections of wonderful music.

I bought this for my 14 year old son. There was a wide variety of songs in this book and my son found them to be just the right level for enjoyment. He plays mostly advanced classical music and found this to be much simpler to play, but not too easy. I enjoy listening to these pieces and love the way that Jim Brickman has arranged his music.
