Customer Reviews

A very positive book with very good advice.Straight to the point.This book should be read by many people especially if you are struggling with the downs of life.This book is an extremely enlightening and interesting read giving tips on changing your life around for the better. Definitely worth a read.

Loved it!

Love the valuable details this book holds! This is a fresh reminder for everyone that happiness is something we can do (and have) on a daily basis. Definitely a sure buy for people who find it tough to get through the challenges of life and find true happiness in the simplest things.

this book was short and not helpful. I'm glad it was free so I didn't waste my money on it.

This was an impulse buy. I came across this book and the title caught my eye. I'm someone who's always looking for ways to live a happy life so I took a chance and bought this book. I'm glad I did. Don't let the simplicity of the book fool you. There is some good information to live by contained within this book. 2 things that stood out to me. 1) You and only you can make the decision to be happy 2) Appreciate things and show gratitude Both of these are concepts I took away from this guide and will try to live by. I enjoyed it.

I borrowed this for the month from Prime. A very quick read. While the 10 items to bring you happiness are spot on, the book was very poorly written and edited. It's almost as if English wasn't the author's main language. Some confusing passages. If you can be positive, you have the main theme of the book.
