Customer Reviews

It contains lots of material, historical background and worthy tips. Much better than some other guides of Rome, available on kindle.

A grate guide for a traveler. The layout of the book is very similar to other Lonely Planet books color pages in a two-column layout, with descriptions of each attraction or area, and groupings of eating, sights & activities, tours, courses, sleeping, and more. Finally, the book includes a removable, fold-out map of Rome. This is indeed the same or very similar to the fold-out map included in Rome. It's a perfect guide book to take with you or for planning in advance.

Very good quality. This is an Easter present for my kids. i received it on time and my kids said it is

fantastic. Thank you very much. This is exactly what I need and my friends like to see it. I very like the new things, very precise and easy to use. Next time I buy will not hesitate. Average quality. Great value and looks great You deserve it.

Very basic information without much substance. Only good to get a high level overview of the city. Best info was about the public transportation.
